DETAILS OF OFFENSE (State fully all other circumstances of this offense and its investigation)

SUMMARY: (CON'T)

Upon arrival it was determined that initial entry to building was made by cutting an irregular shaped hole, 15" x 21" at largest part, in the roof. The roof is made of 2" concrete with re-inforcing wire, insulation, and felt paper and asphalt on top as a sealer. No tools located at this opening. After entering intruders were in an area between the ceiling of the store and the roof and they went approximately 15' west from the roof opening and cut an irregular shaped hole, 16" x 18 1/2" at largest part, through an 8" thick block wall and gained access to the second floor storage area of the store. The stairs from this area to the first floor gave intruder(s) access to the entire store.

The safe that was removed was located in the main display area of the store immediately to the left of the automatic exit door. Two steel expandable cloting rods were found, bent, next to where the safe had been and these were taken from victims display area by the intruder(s) and used to "walk" the safe out from the wall. From here the safe was slid to a point immediately behind the check out aisle and placed on a dolly that belongs to the victim and then wheeled the length of the store to the rear exit door.

Intruders left and removed safe through the east rear exit door which has two locks. One is a dead-bolt lock and the other is in the door knob. The door knob lock was released by twisting it with a pipe wrench found at the rear door and the dead bolt was unlocked with a key that was left in the pharmacy section of the store, on a ring with other keys. The key ring was found with the key for the rear door missing.

The rear door is protected by an alarm that is a "double-contact" requiring one contact on the door and one on the door frame. The alarm is activated when the door opens and the contacts separate. Intruder(s) removed the contact mounting screws and held contacts together and then wrapped tape around the contacts to hold them together and then taped the entire assembly to the inside of the door. After exiting intruder(s) locked the rear door from the outside with the key and left.

Although it had rained most of the night no wet or muddy footprints etc found inside store. The previously described tools and a broken flashlight, taken from display in store, and a melted ice cream bar were found on the floor in the display area.

Initial access to roof could have been made in any number of ways using existing items on the buildings and no ladders were found in the area.

Adjacent to the hole in the concrete block wall on the second floor I located one Julianne hard walkie-talkie which store manager stated belonged in the store however the mate could not be located. This was found on top of a box that had been knocked over when entry was

On November 13, 1972 at 11:07 AM the Munster Police received a telephone complaint from Norms Citgo Service, 1750-45th Munster, in regards to a recovered stolen truck. Investigation revealed that sometime after 5PM November 11, 1972 the truck in question was stolen from Highland Radiator and Lawnmower Service at 8929 Indianapolis Blvd. Highland, Indiana. The truck was a green 1968 Chevrolet pick-up truck bearing Indiana license 7395 B. This truck is equipped with an oversize fold down tail gate. It is possible this truck was used to load the safe taken in the burglary of Ribordys to another vehicle and then parked at the gas station to be inconspicuous. Owner of Norms Citgo advised the truck was not there at 10:30PM November 12, 1972 and was found at 7:00AM date when station was opened. No inquiries made at that time as owner of truck has it serviced at this service station. Undersigned checked truck for latent fingerprints, etc with negative results.

Officer who worked midnights November 13 advised that at approximately 4:15-4:30 AM ^{b6}_{b7c} he was at Norms Citgo making a routine business check when he observed a large HERTZ walk-in van stopped for the traffic light at 45th and Fran-Lin. He stated the truck was stopped facing north on the south side of 45th on Fran-Lin. He described the vehicle as" a dirty silver color walk-in van with the name HERTZ on the side". No other information could be provided. I contacted Hertz rental in Hammond and they advised that sometime after 1:30PM November 12, 1972 a truck matching that description was stolen from their lot in Hammond. He further advised this probably happened around 10:30PM November 12 as the people who live next to the lot reported hearing a truck running on the lot at that time. Theft was reported to Hammond Police their case # 72-46169. Truck taken was a 1966 Ford 16' van, dirty silver in color with HERTZ on both sides and the number 38 on both sides. When taken truck was equipped with a power tail gate, dolly and pads. Indiana license # 3654 D on truck and VIN # F60CC779979.
